Dirty Stone Test Patch

Sandstone Carving

The Ashrose Group specialise in using a low pressure sand jetting system that has been used nationwide for property restoration, including gaining approval for and subsequently working on many Listed Buildings.

The system, in our trained hands, causes minimal damage to an underlying surface and is flexible enough to tackle most property restoration cleaning tasks.

- The System Cleans Bricks, Stone, Wood - particularly effective on textured surfaces.
- Maintains Character!
- Cleans Inside and Outside
- Environmentally Friendly, No Fumes or Toxic Waste
- Low Consumption means less subsequent cleaning up
- Minimal Damage to Pointing or the tooling of the stone.
- Low Pressures eliminate secondary mess inside buildings, and minimises surface damage.
- Competitive Prices
- Subsequent Sealing of Stonework, generally not necessary, can be undertaken by us using Silane sealants, leaving an invisible but breathing coating on the stone, and can be protected against future dirt and graffiti
